HIGH STANDARD CLOTHES.

There is an indefinable something about our **Men's Suits for Spring.**

That bespeaks clothes character. The styles are original and distinctive. The many new kinds in the tailoring gives them a high class merchant tailor effect.

There is a great deal more satisfaction in selecting your spring suit from our stock than going to a merchant tailor or selecting a suit from a small sample, because we not only show you five times as many styles, but you see the suit made up, ready to put on.

When you go to a tailor, or a sample book, you select a fabric; nine times out of ten it does not make up as you anticipate, but its to your order and you take it.

The up-to-date man is the man who fully realizes that ready-to-wear clothes have long since come out of the rut and now possess all that is perfect in men's apparel.

If you will let us show you our line of Men's Stylish, Perfect Fitting Clothes, we will easily convince you that it pays to buy good read-to-wear clothes; we refer particularly to our magnificent range of high-grade suits from \$12.50 to \$20.00.

Buy your clothing and furnishing goods from a furnishing goods store, your dry goods from a dry goods store.

Several buggies, containing as many couples, were driven up to the Presby-

terian parsonage Sabbath afternoon, last, April 6, 1902, and on alighting were escorted into the parlor of Rev. Sawyers, and after taking off their wraps and given sea's, one of the young men reached down into his pocket and drew forth a document which was readily recognized by the minister. In a few moments Edward Foster, of Forest City, and Miss Ostie Baker were on their feet, standing in the presence of the minister, both joined their right hands, and with a few words, these young people were pronounced husband and wife by Rev. Sawyers. The bride is the daughter of Wm. Baker, of Forbes township, a most excellent young lady; one of that kind that will make a first class wife. The groom is a most excellent young man and farmer, and we wish them a long, happy life. Immediately after the ceremony the bridal party repaired to the home of the groom's mother, Mrs. Sarah Foster, of Culp, where they were tendered a reception. About 40 guests were present among whom we notice the following: Lee Cotton and wife, Wm. Steward and wife, George Greiner and wife; Edward Keaster and wife. Misses Gertie and Erma Stalcup, Sallie and Pearl Elder, Bessie Cooper and Maude Ferguson, Messrs. Winfield Gossett, Willis Sipes and Claude Cooper. The young couple were the recipients of a number of handsome and useful presents. May they "live happy ever afterwards" is the sincere wish of their numerous friends.

A BURLINGTON HOLD UP.

Burlington Train No. 13, West Bound For Denver, Held Up Near St. Joseph Waterworks.

Burlington passenger train No. 13, which left St. Joseph Thursday night at 11:40 was held up near the St. Joseph waterworks by four masked men.

The robbers placed a red lantern beside the track in front of the train, and when it began to slow up, Engineer Kerst saw masked men beside the track. He attempted to run the train through, but just at that moment one of the robbers swung himself into the cab and held a revolver to the engineer's head.

Then Engineer Kerst and Fireman Samuels realized that it was a genuine holdup, and that they were powerless. They were ordered by the leaders of the robbers to come down and uncouple the engine and express car from the train. They attempted to do so, surrounded by the four masked men, but the car could not be uncoupled.

The robbers then ordered the engineer to call to the express messenger to open the door at the same time threatening to blow the door open with dynamite if it was not opened. There was some little delay, but the door was finally opened and two of the robbers entered the car. They forced Express Messenger Bedson at the point of their revolvers to open the safe, and they tore open every package, but found no valuables worth taking, according to the report that has been made of the robbery by railroad men. The robbers inquired particularly if it was the Denver train they had held up, and from their talk it was evident that they had got the train they intended. The robbers tore open the packages in the safe, but found no money. None of the passengers were molested. The gang made their escape.

How Did He Get There?

Mrs. Alice Maple is now residing in her new home opposite the Christian church, but she has not yet fully enjoyed the change, caused by nervous prostration brought about by the mysterious disappearance of her son Bert, a 15-year old school lad. On Wednesday evening of last week, he took his wheel and went to the residence of A. VanBuskirk, and gave him the key the house vacated by his mother, which she had but recently sold to Mr. VanBuskirk. From that time until the middle of the forenoon the next day his whereabouts was a mystery. His brothers-in-law, Linn Whitman and Sterling Matthews cleared up the mystery by finding the lad in the second story of the old home. Every door of the vacated place was locked. Gaining an entrance, they searched the house closely, and found the lad up stairs in a dazed condition, utterly unable to tell any thing; he was badly bruised and covered with dirt; he knew not where he was or how he came there. He gradually returned to consciousness and was able to recognize his friends, but he seemed to be looking for his bed. Bert is all right now and attending school, but how he got into that shape is still a mystery, as he cannot tell anything about the affair. Was he foully dealt with? did he meet with an accident, is what his friends and relatives would like to know. His wheel was found to be badly bent and we are inclined to think that he fell from his wheel and rendered unconscious by the fall.

County Board of Equalization.

The count board of equalization organized Monday of this week, with all members present, the three judges of the county court, Assessor Waightman and Surveyor Landos.

The board immediately begun work and have been hard at work during the week thus far, and will likely be on the job the remainder of the week. It is slow, tedious work. The assessment of each township, piece by piece, must be gone over and inequalities noted, and a record made by the clerk, which is the county clerk.

After the work of equalization is completed, a notice is issued to those whose valuation is raised and an opportunity afforded those who feel aggrieved by the action to appear before the same persons acting as a board of appeals. In the meantime those who believe their assessment is already too high, may appear to show cause why it should be reduced.

The assessment for 1902 shows a valuation of \$7,000,000 including the railroad and merchants property, under this valuation the levy for county purposes cannot exceed 30 cents on the \$100. With such a levy the present valuation will scarcely produce sufficient revenue for county expenses, but the board will make no general increase, such increases as are being made will only be along the lines of equalizations.

—Harry Hasness has accepted a position with the Hundley-Walker dry goods company, of St. Joseph.

The Best!

I can do is to give my trade a Fair and Square Deal.

This coupled with the lowest living prices possible; by careful buying of the best of everything on the market, and taking advantage of every opportunity when a low price is offered, and discounting all of my bills, is what puts me in a position to give full and equal value for every dollar received and thus save my customers money.

If it is "something for nothing," that's when I am not in it. If you want to get what you pay for, viz: value received, that's what suits me to a T. Y. T.

A trial will prove to you that I sell the best line of coffee at 15c to 35c a pound. Coffee sold for less than 15c a pound is no good; therefore I do not offer any.

The best imported Japan tea 50c per pound.

The finest sweet mixed pickles 25c a quart.

The best mixed pickle chow-chow in mustard, 15c per bottle.

Waldorf's India relish fancy chop pickles, 15c a bottle.

The best tomato catsup, full pint bottle, 15c a bottle.

California prunes, 5c per pound.

Sabotha, Kansas, garden seeds, 2 packets for 5 cents. You may not want many of a kind, so get two kinds for a nickel. These seeds are first class and are same size packages usually sold for 5 cents.

We have A. C. L. Haas & Son, white fish in 8 pound pails, 25 and 40 pound kegs; there are none better.

The best flour made by any mill at 90c, \$1.00, \$1.05 and \$1.10 per sack of 48 pounds, and every pound guaranteed to please the one that buys it.

The best line of canned goods, vegetables, and fruits on the market. In fact, the best of everything will be found here. Try me, and if at any time the goods are not as represented, return them and your money will be cheerfully refunded.

Produce buys just as much as the cash here.
